

Brauer Supply Co.

HEATING, COOLING, INSULATION, FASTENERS and AIR FILTRATION
WHOLESALEERS AND DISTRIBUTORS
ESTABLISHED 1881

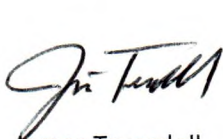

May 20, 2021

Dear Brauer Supply Customers:

Together, we have continued conducting business throughout the difficulties presented since news first broke of COVID-19. We are grateful to you, our valued customer, for your loyalty and patience in dealing with the various safety measures we implemented to comply with applicable law and protect everyone. We are pleased that our company was able to provide you with the usual high levels of service and inventory you have come to expect from Brauer Supply Company.

As the country begins to return to normal, we want to provide you with an update on Brauer's continuing COVID-19 response, policies, and procedures. In accordance with the latest CDC guidance and rescinded local orders, we will no longer require mask wearing at any of our locations. Any employee or customer is free to wear a mask if they so choose. Out of respect for individual privacy, we will not inquire as to the vaccination status of any employee or customer. If a customer prefers to conduct business with masked Brauer Supply employees, the customer need only ask and we will wear masks while interacting with that customer.

Brauer Supply will continue to keep our locations thoroughly cleaned and monitor any new developments regarding COVID-19. Once again, we thank you for your continued business and confidence in Brauer Supply.

James Truesdell
